The Herald is informed that a petition signed by over two hundred voters of Presque Isle, has been presented to the selection asking them to establish a liquor

agency.

Miss Mary Jane Smith, of Presque Isle, was sick one hundred and five days, and with no food during that time except about a teacupful of liquid in twenty-four hours. Sile suffered intense pain, was willing to go and passed away quietly without a carruggle.

The Presque Isic Brass Band is to be re-organized and thoroughly equipped this season, and during the summer will give street concerts once a week. To accom-plish this it has been necessary to raise \$225 by subscription, \$175 of which was obtained in half an hour, last Saturday, by Mr. Bolton, and fifty dollars more are nec-essary and will be forthcomidg.

HOWARD, Resident Agent, methods that elected Mr Cleveland, says h s people have not been deceived by the Presidents pretended friendship for the lurning out a representa tive colored citizen because he was a Republican to make place for one of his policical herebman who is also colored does not convey with it any evidence of regard for the race, and the colored people well understand that fact

The Philadelphia Liquirer publishes the illy twaddle of a Democratic correspon dent to the effect that Mame Republicans would support the Democratic nominee should any other man than Mr Blaine be nominated and thereupon proceeds to instruct the people of this State as to their political duty Maine Republicans stand in no need of advice on this question from any source much less the Inquirer, which, judging from some recent utterances has quite all it can do to keep itself straight the Republicans of Maine have always done their duty in Presidential elections and will so continue without suggestions from outside

The I rovidence Journal having won the indersement of the Democratic press by is now approvingly quoted by the same free trade organs on the tariff question The I mual is progressing, and will soon be regarded as good Democratic authority It was stated during the late campaign that one of the officers of the company was a member of the Cobden Club When a taper begins to endorse Democratic I rinciples in any form it is not surprising to find it giving encouragement to the free traders as the next step and this is what

I ror to the Republican National Convention in 1834 the newspapers which were the partisans of the different aspirants for the nomination were needlessly and mexcusably hostile to those whom they opposed which was the source of great mis thief, says the Boston Journal | Thus far there are few indications of such useless and harmful attacks upon and criticism of the several gentlemen whose names have been mentioned for the nomination. There was never any excuse for it and there will All of the gentlemen whose supporters present their names for the nomination are personal friends, and will not thank their advocates for assailing other aspirants

While some of the papers are having so much to say about what a mee thing it would be to have a Confederate monumer erected at the most advanced point reach ed by the invading army at the battle of Popular Concert, Getty sburg and embellished with macrin tions glorifying the cause for which the rebels took up arms against the Government it would be of some interest to know how many t more monuments have Wednes lay Evening, May 25th. been erected in the South It Was only a short time since that even some tablets commemorative of Union victories were removed in the Norfolk Navy Yard because they were offensive to the ex-Con federates who now desire to raise a monu ment to treason on Northern soil

The Boston Herald thinks it hardly prob able that Attorney General Garland will be appointed to the bench of the Supreme "there will be little difficulty in his con-firmation by the Benefal and a confirmation by the Senate,' as confidence has not been shaken in his personal integri ty Chus does the organ that makes it business to swear that everything the President does is right prepare the way for an indorsement of an appointment which should it come would add insult to injury. Had the Garland episode occurred under Republican administration the Herald would have denounced it early and late, but as it forms a principal feature of Mr Cleveland a administration the Heroid passes over the shameful scandal as something of little or no importance and can even contemplate Mr Garland's elevation to the Supreme Court as nothing out of the way What an honest champion of re-

Gov Bodwell was in New York, Friday, where he submitted a proposition to finish the new Capitol building by contract. In conversation with a newspaper man Gov. Bodwell said "By our proposition, we would save the State not less than \$1,500,-000 The trouble is that both sides are afraid to take the matter up. As far as I am concerned I only know that I was asked if the work could not be completed atively I was asked to make estimates which has been done We set our men to work on the estimates over two weeks ago, nd it took fully that time to complete them They have been presented and there the matter rests. It does not look as though anything would be done at Albany about it."

"Are you going abroad with Mr. Blains "No. I never had such a thought."

THE PEDESTRIANS. A Complete Fizzle in the Seventy two Hour

LAWRENCE, Mass, May 21 The double seventy two hours race ended tonight in a litzle—the public became thoroughly disgusted with the performance of Gleerrero, the San Francisco miner, who simply loafed around the track positively refusing to do good work on the ground that there was no money in the result. As a result Driscoll and Herty took it easy. At 10 o'clock referee L. J. Shyne stepped to the platform and said Guerrero had eft the track, that Meagher Driscoll and Herty had worked hard but Guerrero's ug loss had spoiled the race, consequently he declared the contest at an end. In his opinion Guerrero ought never to be allowed on a track again. All bets were declared off. The greatest indignation exists here over the fisseo. Guerrero parrowly escaped mobbling. The score at the finish was:

Meagher, 113 miles, 5 laps.

Meagher, 113 miles, 5 laps Driscoil, 102 miles, 8 laps Herty, 116 miles, 12 laps.

THE PRESIDENT PLEASED

By the Approval of his Veto by a Delaware Grand Aymy Post. WILMINGTON, Del., May 21. The Every Evening prints to day the following autograph letter from President Cieveland. Mr William G. Robeling, Quarter master, Wilmington.

Dear Sir I am in receipt of your letter of the 7th Instant transmitting engrossed resolution of General U. S. Grant Post No 13, ap proving my executive action in vetoing proving my executive action in vetoling the dependent pension bill I beg to ex-press through you to the members of the post my appreciation of their endorsement press through you to the members of the post my appreciation of their endorsement and my thank for the courtesy manifested in the form of their approval. It sometimes happens that official conduct clearly demanded by all imperative obligation of public duives made difficult by counter inducences and inclinations which grow out of sympathy or by a disposition to follow with ease and comfort the apparent current of popular opinion

Those of our citizens not holding office and thus entirely free from the solemn obligation of protecting the inferests of the people often fail to realize that their publications. lic servants are, to a large extent, debarred in official actions from the indulgence of this charitable impression which in private life is not only harmless but commendable. While the deprivation should mendable While the deprivation should be regarded as one of the stern incidents of a faithful performance of officiel duty and while it should be endured with the resignation arising from an unfaltering faith in the ultimate justice of the American people, it is nevertheless gratifying to receive such expressions as are contained in the resolutions now before me Yours very truly,

The Sovereign Remedy for Burns, Bruises and Abrusions of the Skin is Jum-bolenc. Thos. Jenuess & Son, 12 West present towns of Penoscot, prooksynie and (astine.

In 1795, the town of Castine was incorporated by an act of the General Court of Massachusetts, and named for the noted Baron whose life was so intimately connected with the history of Pentagoet.

Castine entered upon her municipal government and became responsible for three-fifths of the debts of old Penoscot, and became entitled to three-fifths of the property belonging to the old town, the total amount of which was eleven hundred and eighty-five dollars.

Castine settled down to commercial pursuits, drew her support and wealth from Market Square. mag12
